The Pennsylvania Department of Human Services (DHS) recently announced the closure of Polk and White Haven State Centers. These centers are the homes of hundreds of residents with intellectual disabilities, and they are the workplaces of hundreds of AFSCME members.

Residents, elected officials, the public and workers alike were blindsided by this announcement. It is a misguided decision that will uproot and endanger people's lives.

Join us for a rally following the PA Senate hearing on September 24 to send a message:
SAVE OUR CENTERS!
